**Subject:** RE: Please Apply for Additional FY20 EPA Grant Funding

Hi Jer,

Both revised work plans are approved. I will begin working on the grant amendment to award the additional \$350,000 for the two new projects immediately, and will award the remainder of your FY20 CAA 105 funding as soon as it is available.

Pre-award costs are approved if you need to begin either project before the amendment agreement is officially awarded.

Let me know if you have any questions.

Thanks!

- Angie

Hi Jer,

Thank you for sending the revised work plans.

The O3 Instrumentation work plan mentions an attached table of CARB and district air monitoring sites, but the table was not attached. Will you please send it?

Thanks!

- Angie

Hi Angie,

Attached are the revised workplan for the two projects below.

- Remote Airborne Monitoring of Emissions from Ocean-going Vessels - \$200,000
- Ozone Monitoring Support - \$150,000

Please let me know if there are any questions or concerns.

Thank you,

Hi Jer,

I am unable to approve funding for the O3 Instrument Replacement at this time. The project description needs more specific information such as the type of equipment, number of units to be purchased and their estimated costs, and a prioritized list of potential sites for equipment replacement. Or, if the funding for this amendment (\$150,000) is intended to be added to a previously approved special project from your FY20 work plan, please combine this new description with the related workplan activities, include the information requested above, and resubmit the amendment description via email (not through grants.gov) as a full project.

Please let me know if you have any questions.

Thanks!

- Angie

Hi Jer,

The attached guidance letter was sent to ARB to purchase replacement Internal Zero Span O3 instrumentation. Here's your copy in case you'd like to get started on the application.

Please let me know if you have any questions.

Thanks!

- Angie
